Description

Combining Jungian psychology and ancient alchemy, mysticism, and mythology, world-renowned artist Arthur Taussig has created a powerful tool for self-transformation—a Tarot for personal alchemy and psychic health. These complex and beautiful cards are rich with multiple layers of symbolism and are meant to be studied one by one so that each card becomes a key to unlocking the subconscious mind. Each card is an important stop on the Traveler's journey from an unconscious state to one of integrated conscious wholeness.
