### Description

Ascension Magick unveils the diverse mystical roots of ascension, and highlights where the beliefs and practices of today's "light workers" intersect with those of modern pagans, witches, and magick practitioners. It also examines the practical side-various forms of magick, energy healing, meditation, past life regression, channeling, dowsing-and provides helpful meditations, spells, and exercises. From angels and aliens to reincarnation and the Merkaba, Penczak leaves no stone unturned in this remarkably thorough and absorbing examination of ascension spirituality and magick.
