Description

Memory enhancer, great to study with, then take along to test.

Suggested Chakra: Crown

Color: Transparent with characteristic optical qualities

Folklore & Uses: Memory enhancer – a great crystal with which to study. Hold this crystal whilst you are studying for an exam or test, then take it with you. It will help you to retrieve all the right answers from your memory and get a good grade. It couldn't hurt to run the stone over the material, or even read some of the more important pieces through it, in order to attune your subconscious mind for storage. Optical Calcite also **amplifies images, heals the eyes, helps one to see double meanings behind words, helps with migraines, cleanses, enhances communication & memory.**

Sized: Small Medium Rough Pieces. Excellent Value. Size: .5" - 1 " grit

* As you may know, crystals can come in a variety of shapes, sizes and colors - each piece is composed of various minerals which depending on the pockets during the tumbling process some may be colored differently. It is truly amazing that these beautiful items come from mother earth herself. We take great care in sizing and pricing our crystals and will work to ensure that the right crystals find their way home to you! Sizes and coloring may vary.
