Description

Botanical Name: *Cinnamomum zeylanicum*

In general, cinnamon is used as a physical and emotional stimulant. Researchers have found that it reduces drowsiness, irritability, and the pain and number of headaches. Cinnamon essential oil is used in aromatherapy blends to get rid of airborne bacteria. It thus prevents many respiratory tract infections. It alleviates negative thoughts and depression.

The art & science of utilizing naturally extracted aromatic essences from plants to balance, harmonize and promote the health of body, mind & spirit. It seeks to unify physiological, psychological and spiritual processes to enhance the well being of an individual. Let us lead a life of harmony!

Caution: Keep out of the reach of children. Make sure that ashes fall on fireproof surfaces (Ash tray or incense stick holder). Not for human consumption. No Animal Testing & No Child Labor. Made in India.
