Description

Botanical Name: *Myristica fragrans*

The nutmeg in aromatherapy is used for its ability to treat stress & pain. The health benefits of nutmeg oil can be attributed to its medicinal properties such as its role as a sedative, stimulant, relaxing, anti-inflammatory, antiseptic, and bactericidal substance. Traditionally, nutmeg was believed to be effective against the plague and hence it was popular during the Elizabethan era.

The art & science of utilizing naturally extracted aromatic essences from plants to balance, harmonize and promote the health of body, mind & spirit. It seeks to unify physiological, psychological and spiritual processes to enhance the well being of an individual. Let us lead a life of harmony!

Caution: Keep out of the reach of children. Make sure that ashes fall on fireproof surfaces (Ash tray or incense stick holder). Not for human consumption. No Animal Testing & No Child Labor. Made in India.
