Description

Botanical Name: Rosemarinus officinalis

With its warm and penetrating aroma, it is one of the most stimulating fragrances used in aromatherapy. Rosemary was one of the earliest plants to be used in medicine, as well as for cooking and for religious rites. During the middle ages it was used to smoke out devils during exorcism. It has a very strong antiseptic action so it is terrific to use in aromatherapy recipes for cleaning.

The art & science of utilizing naturally extracted aromatic essences from plants to balance, harmonize and promote the health of body, mind & spirit. It seeks to unify physiological, psychological and spiritual processes to enhance the well being of an individual. Let us lead a life of harmony!

Caution: Keep out of the reach of children. Make sure that ashes fall on fireproof surfaces (Ash tray or incense stick holder). Not for human consumption. No Animal Testing & No Child Labor. Made in India.
