Description

The ancient Chinese called the spirit energy, "chi." In the nineteenth century, this force was termed the "astral light" by theosophists, "animal magnetism" by Dr. Franz Anton Mesmer, and now bioenergy. Native Americans, psychics, and mediums have achieved remarkable healings with the intervention of spirit entities. This guide explains how psychic healers operate through hands-on healing, spirit guides, and clairvoyance. Learn about many remarkable healers, including Andrew Jackson Davis, Edgar Cayce, James Rogers Newton, and today's intuitive healer Caroline Myss who works directly with physicians. Myss has been said to have ninety-three percent accuracy in diagnosis. Healing with Spirit is filled with exercises to guide the reader through various phases of spirit communication—from health intuition to medical mediumship. Examine valuable information involving developing intuition and after-life communication.
