Description

Learn Astrology with Lisa

Have you ever wondered how horoscopes are written, or how you could have 3 Cancerian friends and they could all look and act so differently, or even how twins could have such different personalities?

Have you been interested in learning about esoteric subjects like Magick, the Tarot, Chakras, Crystals? And then found out that Astrology is the common groundwork to use in all of them?

Workshops, Courses & Subscriptions: Learn Astrology with Lisa

12 once a month classes make up this course. The course is designed to give you a good working knowledge of Astrology. We will go from beginners, (learning the glyphs and why they look like they do), right on up to being able to interpret natal charts and even write horoscopes.

We will meet both in person (weather permitting) and on zoom for the 12-month duration. So, if you live far away the class is now accessible. Class 1 is 1/30/2023 from 6:30-9pm. February through December classes will be the 2nd Monday from 6:30-9pm. Plan for a 2 hour lecture/hands on workshop and ½ hour for questions and handing out homework. You should plan on making it to each class as one builds on the next. We will not be recording them, but you will get some written material. The Course begins January 30th

3 text books and an Ephemeris are included in the class, along with the usual typed notes from our lessons, your chart, blank wheels, notebook and a binder. A \$40 non-refundable deposit is required upon sign up to hold your spot and place orders for materials. Then it's \$40 a month for 11 months. Or \$480 total - you may pay ahead or as you go.

I recommend this class highly. I am nearing the final class. We wrote horoscopes last night, and amazingly, I found that I can do this! I found astrology daunting before this class. No longer! You can learn this. Lisa is an amazing teacher. You need this course.
