Oracle Cards: Lunar Nomad Oracle, The - Shaheen Miro

Description

The Lunar Nomad Oracle is inspired by the traditional Lenormand system, but unlike the Lenormand, this deck comprises 43 cards that are rich with multiple layers, colors, and imagery, all designed to speak to the intuitive self, what the author calls the Lunar Side. The symbolisms of the cards help the user formulate a story or reading, familiar to followers of Tarot, but because the Lunar Nomad Oracle does not have suits or a linear structure, it gives the reader the freedom and fluidity to really explore the deck and add their own intuitive insights and interpretation for greater clarity and meaning.

The book provides a brief introduction to Lenormand cards, instructions for how to use the oracle, interpretations for reading each of the 43 cards, and clear guidance for reading them in a simple 3 card layout as well as the more in depth 9 card layouts.

The Lunar Nomad Oracle is designed to awaken your sense of power, deepen your sense of wonder and pull you into touch with your creative, powerful self.
