Description

Called the Lunar Return, the chart cast for this instant tells the tale of the next 27½ days to come. It paints your emotional landscape day by day and reveals the tides that wash over your life as the Moon drives her daily course. Once a primary tool of every professional astrologer, this invaluable technique has often been neglected because of its demanding subtlety and complexity.

In this book, long-time astrological innovator John Townley has cut to the core of how and why to use the Lunar Return, giving the student or professional astrologer the keys to the heart and the pulse of each and every month.
