### Description

Lush photos showcase rare objects from around the world as well as models of mythical beasts like krakens and Rocs, along with fossils of actual extinct animals such as the six-foot-tall primate called Gigantopithecus and dinosaurs such as Protoceratops, which may have inspired the griffin. Also included are engravings, paintings, maps, and ephemera from the Middle Ages to modern times, all capturing the origins of legendary animals that continue to thrill, terrify, and enchant us.
