Description

These ancient magical symbols offer deep insight into the hidden structure of the cosmos and the secrets of the human psyche. Thomas Vornel (Vornel) created this deck to communicate the character of the runes in vivid pictorial form on cards. The Power of the Runes deck consists of 25 cards, one for each of the runes. The images are based on Teutonic gods and myths shown in archetypal settings. Each pictorial scene captures the essence of the rune it represents. The cards also display the rune number and corresponding phonetic letter. At the bottom and top of each card is the rune letter and name in the runic alphabet. In the instruction booklet Vornel gives a brief history of the runes, describes the meaning and symbolism of each card, and explains several casting systems for reading with the cards to find answers and insights.
