Description

Starting out with fundamental information on Magickal paraphernalia, their use and care, this book also examines how to intricately weave the Magickal with the mundane so that you can breathe Magickal energies into every aspect of your home, inside and out. Many students of Magick, after learning of the basic tools and their uses, forget to take the extra step of integrating Magick into their everyday existence. Witchcraft is not something you do; it's a way of life. Magickal applications should not be confined to rituals or spell work. For the modern-day Witch, Magick does not just exist in the sanctuary or temple, but flows through the practitioner and into every space in and around the home. For both the beginning or practiced Witch.
