Description
Angel's Influence Salts - Magickally charged by practitioners of The Craft.

Dissolve 2 to 3 tablespoons in a tub of bath water. For best results always cast a circle before bathing.

If you don't have a tub, you can use these salts in the shower just as effectively - simply sprinkle a handful into a damp wash cloth and use just like your normal shower gel.

Dissolve 1 to 2 teaspoons in a large bowl and use to cleanse crystals or to charge & program jewelry, money, etc. Just be sure to carefully wipe clean to prevent tarnish.

You may combine 2 or more different varieties of Sacred Salts to enhance the focus of your intent.

Containing only natural ingredients, each jar is approximately 4 ounces.
