Description

Ancient societies all over the World set great store by their Augurs, who were experts at divination by analysis of birds. These magical magician-priests had the skills to interpret the flight patterns and behavior of birds in order to translate the desires of their Deities. Every bird in this beautifully illustrated 78-card deck has been carefully chosen for its relationship to each Tarot card, and uses mythology, folklore, and legend, as well as the natural characteristics of each bird, to underline that connection. We invite you to fly into the world of magic as you learn the secret language of birds.
