Description

Feel the depth of rich color and intuitive grace as you explore imagery of the Circle, from dreams and from many and varied spiritualities, including ancient Egyptian, ancient Greek, and Afro-Caribbean. Travel to a personal realm where the creator's interpretation of an image is secondary to what you, the user, sees. This is your set of tools for self-exploration, self-improvement, and self-validation: contemplate the images, read the meditations, and use the journal to describe what the elements say as you create a singular and lasting resource that is as insightful and

individual as you are.
