Based on the powerful mythology of the Norse, this 81-card divination deck brings the wisdom of the ancients into your life. Intricate pen and ink drawings are soulful representations of the Eddas, the stunning written accounts of the legends of old. These cards, along with the informative guidebook, are designed to be used for divination, guidance, and spiritual connection. Created by a renowned artist and long-time participant of the heathen revival, this kit is a welcome addition to those who desire to work more deeply with the Nordic pantheon.
